

# Box Carpet Extractors

## X-411 w/Accessories

Lightweight and easy to use, the X411 extractor is designed for commercial cleaning of carpet and upholstery in offices, hotels, apartments, schools and many other areas.

Shared eight gallon solution/recovery system divides solution in a bladder. During the cleaning operation it is pumped out as the bladder collapses. The dirty solution is vacuumed up and recovered in the commonly shared tank.

The see-thru dome allows for constant monitoring of extractor's cleaning effectiveness.

The X-411 is equipped with a built-in shutoff to prevent the tank from overflowing.

The nozzle with two spray jets distributes water evenly to the carpet fibers. Dirt is flushed to the surface and grimy solution is removed simultaneously by the vacuum system.

Equipped with a quick release cord system and carry handle that allows for easy transport.

Easy to empty into a floor drain or a bucket, uncap the drain hose and let gravity do the job.

The tank is constructed of pressure molded seamless fiberglass.

## specifications

### X-411 (315095)

*Vacuum Motor:*  
120 Volt, 1.3 HP By-Pass;  
97 CFM - Waterlift 93"  
*Current:* 8.3 AMPS  
*Water Output:*  
2.0 GPM - Maximum  
*Pump Pressure:* 50 PSI  
*Capacity:*  
8 Gallon Solution & Recovery  
*Cleaning Path:*  
10" w/2 Spray Jets  
*Power Cord:*  
25 Ft, 3 Wire Grounded  
*Accessories Include:*  
10 Ft Solution/Recovery Hose;  
5 Ft Stainless Steel Wand and  
10" Nozzle w/2 Spray Jets;  
Upholstery Tool

## X-510 w/Accessories

The X-510 extractor is designed for commercial use to cleans carpeted area efficiently and thoroughly.

Durable rotationally molded polyethylene housing, won't break or corrode.

See-thru dome allows for constant monitoring of the extractor's cleaning effectiveness.

Equipped with a built-in shutoff float to prevent overflowing.

The nozzle with two spray jets distributes water evenly to carpet fibers. Dirt is flushed to the surface and grimy solution is removed simultaneously by the vacuum system.

## specifications

### X-510 (441767)

*Motor:*  
120 Volt, 1.8 HP By-Pass, 60 Hz;  
112 CFM - Waterlift 106"  
*Pump Pressure:* 72.5 PSI  
*Capacity:*  
9 Gal Solution/10.5 Gal Recovery  
*Power Cord:* 50 Ft Extension  
*Accessories Include:*  
10 Ft Solution/Recovery Hose;  
5 Ft Stainless Steel Wand and  
10" Nozzle w/2 Spray Jets;  
Upholstery Tool.

## X-404 w/Accessories

The X-404 is designed to clean carpets in small and confined areas, and is easy to maneuver and transport.

Rotationally molded hi-density polyethylene body is corrosion resistant and won't dent.

See-thru dome allows for constant monitoring of the extractor's cleaning effectiveness.

The nozzle with one spray jet distributes water evenly to the carpet fibers. Dirt is flushed to the surface and grimy solution is removed simultaneously by the vacuum system.

Removable recovery tank is easy to empty into a sink, bucket or floor drain.

When transporting, stand up the X-404, pull up on the steel handle and wheel the extractor away.
